Zahro Nurobby Ashari

Software Quality Assurance

zahronurrobbya@gmail.com | +62 85161303941 | Malang, East Java, Indonesia

I am a junior quality assurance professional with over a year of experience in the field. I have expertise in using various testing frameworks and tools such as Cypress, Robot Frameworks, Jmeter, Mocha Chai, Selenium, and Appium . My role involves creating and executing test cases, conducting regression testing, and identifying and documenting software defects. I have a strong understanding of quality assurance principles and methodologies, and I am proficient in writing automated test scripts using the mentioned frameworks. Throughout my career, I have collaborated with development teams to ensure the delivery of high-quality software products. I am detail-oriented, quick to learn new technologies, and dedicated to delivering reliable and efficient testing solutions.

Work Experience

Junior Software Quality Assurance, ICUBE by SIRCLO   September 2022 – June 2023

Contract – Remote

Highlight:

- Execute manual UI testing and Functional testing from total 21 Client Project
- Contribute to migrating automation script for B2C product from Robot framework to Cypress
- Monitoring resolution of, tested fixes, and helped developers tackle ongoing problems and providing QA perspective.
- Documented testing procedures for developers and future testing uses
- Collaborate and communicate with developers, and TL to provide testing feedbacks and resolve issues

Internship Quality Assurance, ICUBE by SIRCLO   March 2022 – September 2022

Contract – Remote

Highlight:

- Prepared QA evaluation reports and submitted to management.
- Determined overall product quality by accurately conducting and evaluating various QA tests.
- Assisted with planning of quality assurance testing projects following functional specifications.
- Documented testing procedures for developers and future testing uses
- Collaborate and communicate with developers, and TL to provide testing feedbacks and resolve issues

Internship Full stack Developer, Ezy Industries   April 2021 – December 2021

Contract – On Site

Highlight:

- Worked with back-end developers to design APIs
- Used NodeJS (ExpressJS), ORM and SQL to develop and manage databases for Back-end Application
- Used Flutter to create user interface for Front-end Application
- Analyze and debugging reported bugs

Education

SMK Negeri 4 Malang (Malang Vocational Public High School 4)   2019 - 2022

- Software Engineering
- Score : 90.15 of 100

Course Certificate

- **Introduction to the Internet of Things and Embedded Systems – Coursera**
  Instructor : Professor Ian Harris, Department of Computer Science - UCI (University of California, Irvine)

Skills

Programming Language & API :

- HTML
- CSS
- JavaScript

- TypeScript
- MySQL
- Git and GitHub
- Rest API
- NodeJS
- HTTP
- Postman
- Altair GraphQL Client
- Java
- C++

Frameworks, Tools and Other Skills:

- React JS
- Next JS
- CodeIgniter 3
- Flutter
- Tailwind CSS
- Bootstrap
- Robot Framework
- Selenium
- Appium
- JMeter
- Cypress
- Mocha and Chai
- Browserstack
- Linux
- Google Docs, Google Sheets, Google Drive
- Strong Algorithm and Logic

Competencies

- Test Implementation
- Manual Testcases Preparation
- Documentation Skills
- Organization and Time Management
- Flexible and Adaptable
- Attention to Detail
- Decision Making
- Defect Monitoring
- Good Telephone Etiquette
- Good Team Player
- Great self-starter
- Fast Learner
